**Gary Pollard**  
**Pollard Windows & Doors**  
**4913 Genesee St., Cheektowaga, NY 14225**  
**email: [gpollard@pollardwindows.com](mailto:gpollard@pollardwindows.com)**

NCBA 2nd Vice President Gary Pollard wears many hats for our association. In addition to serving as 2nd V.P. he is our State Director and our trustee for the state Legal Defense Fund. Gary takes these duties very seriously. Since being named state director he has not missed a state board meeting. Through his efforts we will host NYSBA's Fall Meeting in Niagara Falls on September 16.

Pollard Windows and Doors is a Canadian manufacturer of energy-efficient windows and doors, featuring their Liberty Collection vinyl clad windows and doors, and Advantage Series all-vinyl windows, sold through their network of distributors, including Weatherpanel and Alside.

An exciting new Pollard project is participation in Alfred State University's Green Home Showcase.

Gary is a proud family man, with a beautiful wife and three beautiful daughters. In addition to spending time with them he enjoys playing soccer, reading (military history), fishing, football and rugby.

Gary received his Business Diploma from Sheridan College, and currently serves as Acting President of the Southtowns Builders Association.

## **Jim Herberger**

**Maximum Security**

**80 Earhart Dr., Williamsville, NY 14221**

**628-5111 fax: 633-2007**

**Email: [jherberger@maximum2secure.com](mailto:jherberger@maximum2secure.com)**

Jim Herberger, Sales Manager at Maximum Security in Williamsville is our newest member.

Maximum Security sells, installs and services burglary, fire and medical alarms, as well as CCTV systems, access control and intercom systems for both commercial and residential customers. They also provide monitoring and emergency service.

A visit to Maximum's website gives a reminder of the importance of security systems. More and more businesses and homeowners are installing security alarms and closed circuit TV monitoring systems for safety and security.

Recent Maximum projects include cameras on the Lockport International Railroad Bridge, fire alarms for the Erie County Fairgrounds, and Hillman Automotive.

When not working Jim enjoys spending time with his wife and 5 children, and he plays guitar and writes music—maybe we can hook him up with Fred Caputi for a musical interlude at one of our meetings. Any more musicians out there?

Jim is also active in the Niagara Area Business Exchange, serving as Vice President.
